ches of North Carolinians Located in Bichmond-What They Are Doing

For over two centuries North Carolina and Virginia have been standing by each other and have been swapping population and exchanging "courtesies" across the line. As far back as the days of Cary's rebellion the Old North State uttered the cry to Virginia, "Come over and help us"-a cry that was responded to with alacrity-and several times since Virginia has sent back the invocation, and never with the result that it was not not only in war and in peace, but in love, and in many instances in which has helped Virginia as regards the last named, Cupid may be said to have been in an intermediate position between Mare and the white-winged messenger, seeing that the little rascal was in the bumble-bee" state.

VIRGINIA'S GREENA GREEN, There is not a cemetery or a battlefield in Virginia where Mother Earth does not hold within its embrace the dust of heroes from North Carolinathen which State none that cast its fortunes with the Confederacy made a more imperishable record. For many years North Carolina has been the Gretna Green of Virginia maidens all forlorn and disconsolate swains, and the North Carolina line-stone has been their oal and the stumbling-block of irate Virginia fathers and obdurate Virginia thers. Years ago the headquarters of Hymen were at Weldon and he had an agency at every cross-road on the Vir-ginia border, and even unto this day it is a common thing for a North Carolinian to swoop down on Virginia or a Virginian to swoop down on North Caro-lina and carry off a fair bride—not against her own sweet will, however,

It is the accepted thing in Virginia to speak of "our North Carolina cousins," and the phrase is not one of mere courte-The people of the two States, particularly in the eastern and middle portions, are descended from the same stock, the prominent surnames in these ections are the same, and the border the war it would have been almost imout drawing Virginia blood.

TRADE PAST AND PRESENT. Prior to the war also Virginia, and Richmond more especially, enjoyed a fine trade with North Carolina, and as soon after the war ended as circumstances would permit that trade was resumed. North Carolina, which is naturally one ouperated rapidly by reason of the energy and industry of her people, with the result of making Richmondone of her chief markets, and now that there are of the richest States in the Union, retwo great railroad systems centring that with their many ramifying connections pierce the Old North State, there is not a Richmond wholesale house that does not keep one or more young men travelling in North Carolina.

But the Old North State has not contented herself with sending Richmond ticeable. Mr. Watkins is about thirtytrade.
